

Welcome to TriniTech's Partner Program

Effective February 4th 2004 we will be introducing the Partner Program, we all have felt the ups and downs of the IT industry. The beginning of this year points to high expectations and new business plans. All of us know when are busy times are and when slow times will arrive. The KEY is to avoid the slow times, believe it or not they are more in your control than you will ever know. In September 2003 we started selling direct from our factory, to everyone's surprise we found a very enthusiastic market. So much so that we are averaging over 80,000 hits to our website a month, here is our problem and also our solution.

Trinitech is being bombarded on a daily basis from end users and companies alike that assume we repair PC's. We don't (that is the problem) you do (that is the solution). So we have created the Partner Plan. If you purchase our Diagnostic bundle.

Which includes:

PC Sentry Plus Flip Test Card, ExpertCheck Diagnostics software troubleshooting kit for **\$399.00** a retail value of **\$900.00**.

We will Include:

Free your choice of Comptia certification training, you pick A+ or Networking +, it's your choice. If your choice is MCSE or Cisco and not Comptia we will include one module at no extra charge. The whole name of the game is, your business plan. **You can control the slow times.**

Everyone who takes advantage of this generous offer will also be listed on our website as a qualified PC technician. So all the calls we get for work on PC's will be referred to the tech in that area right off our website. Bottom line is more business for you and no fee's to pay. So please be patient with our customer service staff as we roll out this win-win promotion. You can call me directly to discuss this offer at 866-585-3101 or email me at mike@trinitech.biz.

Sincerely,

Mike Montoya
General Manager
